We know Accessible Travel

Our team at Accessible Travel are specialists in providing unbeatable travel services for persons with disabilities.

- Every client is assigned a dedicated personal Travel Manager who is extremely knowledgeable and experienced in accessible travel.
- We spend time to gain an in depth understanding of your requirements for travel, whether it's for business or pleasure and proactively ensure your priorities are met and you are protected from unnecessary charges.
- Travel is our passion and through our experience and relationships with organisations such as the Canadian Paralympic Committee (CPC) and the Rick Hansen Institute, we have demonstrated our commitment to providing excellence in accessible travel services. We believe in partnerships and 2% of all money we earn goes back to the CPC.
- Your personal Travel Manager has access to multiple fare sourcing programs so we can save you hours of surfing the internet in search of information and pricing.
- We offer emergency travel assistance 24 hours a day, 7 days a week, 365 days a year. Your safety and comfort is our number one priority.
- As Flight Centre is the 4th largest travel retailer in the world and the 2nd largest in North America, we have access to globally negotiated fares while providing you with local, personal service.
